Incision

Skinny Puppy

Future shock, incision
Crystal method in my brain,
magnitude it's all the same,
speed for some, fun at home,
new persistance to the game,
motivate the inner ear creaping death and crystal clear
in it's spot, only stop
question what's inside of you
Sunlight still up in sky,
black clouds, still tears drip dry,
tell tales still fly so high
notions can backwards lie
????? [sample]
Crystal method in my brain,
magnitude it's all the same,
speed for some, fun at home,
add new persistance to the game,
motivate the inner ear creaping death and crystal clear
here it's fun only sun.
question what's inside of you
?????
black clouds, still tears drip dry,
tell tales hearts fly so high
notions can backwards lie
Crystal method in my brain,
magnitude it's all the same,
speed for some, fun at home,
add new persistance to the game,
motivate the inner ear creaping death and crystal clear
here it's fun only sun.
question what the fuck's inside
black clouds, drip dry,
I don't tend to ask them why,
dripping my life, short it, sort it out
short it, sort it out
Future shock, incision
Future shock, incision
