

My Whole World

Keith Sweat

Yeah

I want to kick it off something, girl, like this to you

Yeah, come on

Here we go My whole world has turned around (Mmm, hmm)

Ever since you walked into my life (Mmm, oh-oh-oh-baby)

My whole world has turned around (My, my, baby)

Ever since you walked into my life (Let me kick it like this to you) No more lonely days [No more lonely days]

And no more, girl, lonely nights [No more lonely nights]

Ever since I met you, baby, oh, yeah

Everything is, oh, so right, oh, my baby My whole world has turned around

Ever since you walked into my life (Ever since you came along, oh, yeah)

My whole world has turned around

Ever since you walked into my life (Yeah, let me kick the second verse) You got everything, baby [You got everything]

Any man could want from a woman, oh, yes, you do [Oh, yes, you do]

Girl, let me lay my everything, baby, baby [I want to lay it on you, girl]

My everything right down on you My whole world has turned around (My)

Ever since you walked into my life (Ever since you walked into my life, baby)

My whole world (My whole world) has turned around (My whole world)

Ever since you walked into my life (Ever since you came along into my life, baby) I know what you need (You turn me on, baby)

I know what you like (You turn me on, baby)

I got it, baby, right here (You turn me on, baby)

Oh, girl, you're so nice (You turn me on, baby)

If you want my love (You turn me on, baby)

Girl, it's waitin' for you (You turn me on, baby)

Just lay your body down (You turn me on, baby)

There's nothing I wouldn't do My whole world

My whole world

My whole world

My whole world

My whole world

My whole world

My whole world (Girl, my) My whole world (My whole world, baby, ah) has turned around

Ever since you walked into my life (Ever since you walked into my life, girl)

My whole world has turned around (Ooh, baby)

Ever since you walked into my life (Ever since you walked into my life, girl) My whole world has turned around

Ever since you walked into my life (I don't understand it, ooh, ooh, girl, I don't understand it)

My whole world has turned around

Ever since you walked into my life
