

Ty Cobb

Soundgarden

I'm sittin' in a magic hat with smoke and mirrors
And tire rubber fires watch me disappear, yeah
What made it slow you down sucking on a ball and chain
Another motherfucker goes down the drain, yeah
Hard headed fuck you all
Hard headed fuck you all
Just add it up to the hot rod death toll
Hard headed fuck you all
Hard headed fuck you all
Just add it up to the hot rod death toll
Sick in the head sick in the mouth
Can't hear a word you say not a bit and I don't give a shit, yeah
Got a big glass, I got the steel, I got everything
All I need is your head on a stake, yeah
Hard headed fuck you all
Hard headed fuck you all
Just add it up to the hot rod death toll
Hard headed fuck you all
Hard headed fuck you all
Just add it up to the hot rod death toll
Hard headed fuck you all
Hard headed
Hard headed fuck you all
Hard headed
Hard headed fuck you all
Hard headed fuck you all
Hard headed fuck you all
Hard headed fuck you all
Hard headed fuck you all
Just add it up to the hot rod death toll
To the hot rod death toll
To the hot rod death toll
To the hot rod death toll
To the hot rod death toll
Go, go
