

My Favorite Accident

Motion City Soundtrack

I got the message long before you said you knew
There was no chance of us at all
With no velocity an empty headin' hard and far too long
I spent two years alone with you Just when I thought I had forgotten
You came back soft without a sound You said we were an accident
With accidents you'll never know what could have been
So we were an accident
You'll always be my favorite one You hit the road and left me in ocean
I can't swim in the silence of your skin, skin, please let me in
Side the times we never had right
Inside two years alone with you You said we were an accident
With accidents you'll never know what could have been
So we were an accident
You'll always be my favorite one What could have been?
(Why can't you believe?)
What could have been? Long winded promises of future company
Up close the sound remains the same
Without the reign of terror over every momentary change
We are exactly as before You hit the road and left me in ocean
I can't swim in the silence of your skin, skin, please let me in
Side the times I had to forget you
Inside no chance of us at all
