

# El Salvador (The Saviour)

[Phil Joel](#)

Wrestled with the things I saw, steppin' through the door  
Knowin' things won't be the same when I get back on the plane  
I look into your eyes and I feel like I know you  
So far removed, our lives but so close inside, let our worlds collide  
El Salvador, El Salvador, You'll never know  
what You have done  
You'll never know what has begun, You left Your mark on me  
You left Your mark on me  
Wrestled with the things I saw, steppin' through the door  
These circumstances are beyond Your control  
I see Your hands, they touch my soul  
Oh, this memory I'll always hold  
El Salvador, El Salvador, You'll never know what You have done  
You'll never know what has begun  
I know more now than I have ever, ever known before  
I learned more in one day than I have learned all years before  
Don't let my heart grow cold for this I've seen  
And You have shown me beyond this space, this time  
Don't let my heart grow cold for this I've seen and You  
have shown  
Beyond this space, beyond this time, we must let our worlds collide  
El Salvador, El Salvador, You'll never know  
what You have done  
You'll never know what has begun, El Salvador, El Salvador  
You left Your mark on me, You left Your mark on me  
El Salvador, El Salvador, You left Your mark on me, El Salvador
