

Twilight

Alter Bridge

[Verse 1]

The world has gone mad, the future is so unclear
Where do we stand, it feels like the end is near
I remember everything you said and what would come to be
A prophet of the future, now the future is reality[Chorus]

(Twilight)

Where do we go, time is running out
(We can't fight)
Hope for a future worth saving now

[Verse 2]

One thing's for sure, we must accept and change
For we in time just have ourselves to blame
Divided by differences, now everything is torn apart
Tomorrow is contingent on the tolerance of every heart[Chorus]

(Twilight)

Where do we go, time is running out
(We can't fight)
Hope for a future worth saving now

(Will you show us the way we should go)[Bridge]

I looked at the sky, praying for time
Hoping for what hasn't come
The dream's still alive

But the nightmare just won't come undone
The tyrants will rage, there's no time to waste
There's no telling what will become

If we don't sustain some hope from tomorrow, we'll learn[Guitar Solo][Chorus]

(Twilight)

Where do we go, time is running out
(We can't fight)

Hope for a future worth saving now(Twilight)

Where will we go when it all comes down
(We can't fight)

Hope for a future worth saving now
(Will you show us the way we should go)
