I Don't Wanna Leave

US5

Missing you in my life
Cant you see our lives
Really aren't better now
Did we waste our times
Do we have to be
Separated for all time
Now it seems we are free
To be alone in miseryI dont wanna leave
I still feel the love inside
I dont wanna leave
I still ask the question why
I sit and wonder
How did we just lose the key
To all that wa so right
I dont wanna leave your side
TonightWere we right or justified
Or maybe we were blind
Not to see what we had
Was so hard to find
Now I wish that we
Could only just rewind the time
To the time we both had the chance
To make it work out rightI dont wanna leave
I still feel the love inside
I dont wanna leave
I still ask the question why
I sit and wonder
How did we just lose the key
To all that wa so right
I dont wanna leave your side
TonightI couldn't be without you (dont leave)
Dont wanna be without you (dont leave)
My heart is calling out your name
But you dont care at all
(you dont care at all)
Not sure what was articulated (dont leave)
No matter how I try to stop this pain (dont leave)
I'm feeling lost wihtout you
Dont let these feelings fade

(not sure what was articulated)I dont wanna leave
I still feel the love inside
I dont wanna leave
I still ask the question why
I sit and wonder
How did we just lose the key
To all that wa so right
I dont wanna leave your side
Tonight
