

Buffalo (iTunes Session)

[alt-J](#)

Breathe on me my buffalo
Your eye warms to a warning
of a death without words I am here
Laughter swallowing cups of pride
Inside it paints me
With a bitterness I loathe
For the future tributes
Of Thom Sonny Green Breathe on me my buffalo
Your eye warms to a warning
of a death without words I am here
Laughter swallowing cups of pride
Inside it paints me
With a bitterness I loathe
For the future tributes
Of Thom Sonny Greene The buffalo from buffalo
who are buffaloes by the buffalo
from buffalo
Buffalo are the buffalo from buffalo And all's above lay
Pay tribute to the future death
of our Thom Sonny Green.
