

Laid To Rest

No Motiv

Wake up, call upon the ears of all
See how water left behind the salt
Construed out of pain to heal the wounds
One truth left behind to us from you You were taken
Hero of my world undone
Laid to rest now We count days to nights and weeks to years
Without wait a moment for the pain
Sit down watch the damage do its deed
And see how what you do you do to me
Even though I missed the day you were taken Heroes of our world undone
Laid to rest now
