

Welcome to My World

Christine Jorgensen

Welcome to my world
Won't you come on in
Miracles, I guess
Well they still happen now and then

Step into my show
Leave your cares behind
Welcome to my show
Built with you in mind

Now, knock and the door will open
Seek and you will find
Ask and you'll be given
The key to this world of mine

I'll be waiting here
With my arms unfurled
Waiting just for you
Welcome to my world

Now knock and the door will open
Seek and you will find
Ask and you'll be given
The key to this world of mine

I'll be waiting here
With my arms unfurled
Waiting just for you
Welcome to my world
