

# Source

## Widek

Morning comes and I'm up on time again  
Upon getting up and I'm down on what I got up for  
    Boring, dumb, and fine  
    It's been a long time my friend  
    You haven't changed, neither have I  
    So why you want to bring that up

I feel it started at the source

What is it that makes you cry and why?

When you see a documentary and know the outcome  
    And that it's fucked  
    You still hope Hitler will blow up  
    And that Kennedy will duck

I feel it started at the source
