

That's Classic

Rizzle Kicks

Now tune in to the roaring 20's
Roaring 20's
Rizzle kicks
Old school mudda f'ckerYa
Ya
Alright firstly, big up all my wizards and witches
Rizzle kicks here to deliver the sickness
Cracked the band wagon that's bringing us hitches
Old school like you've been to the pictures
Yeah, I wanna be makin' the magic
So daniel radcliffe accept less crap of your acting
Woah we like daniel why you dissing him?
The dudes harry potter right
I don't think he gives a shit
Check the resume
Or let us demonstrate
Me and my friends know how to celebrate
And that's fact, not something we premeditate
Or like when people thought that david blaine could levitateWe will never say no to a good time
No, we will never say no to a memory
And we'll always say yes to an invite
We live life on the back of this melodyMe and my friends spent life in plastic
Brand new times and brand new happenings
We get up to all kind of antics
There's another one
That's classic
That's classic
That's classic
There's another one
That's classic
We get up to all kind of antics
There's another one
That's classicWe've got a new flat rented
A nice little visit
Photos on walls
People smiling in pictures
We can subscribe to that image
Plus my room is called a kennel where you find all the
Sometimes I go and it turns out a blur

Told her my name and she said that she heard
Told her that I'm really good with the words
Doesn't have the same effect when they're slurred
Yo living off living
Living ain't easy
Living like a teacher
Giving out cds
What do I wanna be?
A if your lucky
Your life wont need to be graded it's lovely
F the obligatory
Yes creativity
I think they'll stand up wherever I learn
Future to my left
Past to my right
Arms spread wide like a bird in flight
Me and my friends spent life in plastic
Brand new times and brand new happenings
We get up to all kind of antics
There's another one
That's classic
That's classic
That's classic
There's another one
That's classic
We get up to all kind of antics
There's another one
That's classic
There's another one
That's classic
Tell me what do you say you see?
Tell me what do you say you see?
Yeah, what do you say you see?
Tell me what do you say you see?
Yeah, what do you say you see?
Tell me what do you say you see?
Yeah, what do you say you see?
Tell me what do you say you see?
Me and my friends spent life in plastic
Brand new times and brand new happenings
We get up to all kind of antics
There's another one
That's classic
That's classic
That's classic
There's another one
That's classic
We get up to all kind of antics
There's another one

That's classic There's a, there's a there's another one
There's a, there's a there's another one Eh oh!
What you saying?
Check, That's classic
