Find Me

Christina Grimmie

I know something's bound to change
and I know I have been to blame
Washing away this era of madness wont come and spread no shame
cause ive been waiting watching and praying for you to go insane.
ive been holding out
come on out come on out and find me ive been waiting my turn
pressures on and now your heart is beating
to the sound of my name and i say
find me find me come on out and find me
find me find me
Feeling the fire burning the thought of
calling back your name
maybe its all different because i cease to play your game
forget the steps forward and take one
back pray that your secure
so now your crying open the mind to hide what your looking for
okay come on out come on out and find me
cause ive been waiting my turn
pressures on and now your heart is beating to the sound of my name
and i say , find me find me come on out and find me
find me find me
with your love now
this is your smile oh need or want to get you
anywhere anymore anymore
ANYMOREEE hold me now come on out and find me
cuz ive been waiting my turn
with your love now your heart is beating
sos the sound of my name
find me find me
come on out and find me
find me find me
oooo
hold me now come on out and find me
cuz ive been waiting my turn
pressures on and now your heart is beating
to the sound of my name come on out and find me
