

Carry Me Away

King Charles

Carry me away my lady
Carry me until the dawn
Escape with me and we'll travel far from
 Here meet me with the dawn
 When the waters spat with rage
 All of the world became a haze
I know I could always see your face
 My world is calling me my baby
 Carrying me back to my life
And I'll see you again you are my
 Wildest wildest friend
 When the waters spat with rage
 All of the world became a haze
I know I could always see your face
 So sing to the seven seas
 All of the oceans far between
 Carry us oh carry us away
 Ever wandering ere by night
 Ever wandering by day
And I've been chasing my tail alright
 Chasing my time away
 When the waters spat with rage
 All of the world became a haze
I know I could always see your face
 So sing to the seven seas
 All of the oceans far between
 Carry us oh carry us away
 I'm prepared to take my time
 Let it go, let it go away
