Not Knowing

Minimal Compact

watching different roads and wonder where my own is rolling
waiting all day long for a change and it's not showing
all those moments days and years
left me standing here not knowing
all these people everywhere
kept me waiting and not knowing
holding to myself fear is all that kept me going
waiting all day long for a change and it's not showing
all those moments days and years
left me standing here not knowing
all these people everywhere
