

# Get Physical

Jeffree Star

Work me out, let's get physical

Wear me out, let's get physical

Work me out, let's get physical

Wear me out, let's get physical

The sweat is dripping down my back, it feels so good

The time and place is right now 'cause I'm in the mood

I wanna give you something more than exercise

Feel my body pumping as I work your thighs

Give me a test drive, a different kind of fitness

Do you wanna hit this? Do you wanna hit this?

Give me a test drive, a different kind of fitness

Do you wanna hit this? Do you wanna hit this?

Work me out, let's get physical

Wear me out, let's get physical

Work me out, let's get physical

Wear me out, let's get physical

You know I'm hotter than a furnace, so take it slow

Clench my teeth together as you start to blow

You might get agoraphobic, so come inside

Come on, let's do some more aerobic exercise

Give me a test drive, a different kind of fitness

Do you wanna hit this? Do you wanna hit this?

Give me a test drive, a different kind of fitness

Do you wanna hit this? Do you wanna hit this?

Work me out, let's get physical

Wear me out, let's get physical

Work me out, let's get physical

Wear me out, let's get physical

Don't get tired, we just got started

While you weren't looking the pacific ocean parted

Don't get tired, we just got started

We just got started

Work me out, let's get physical

Wear me out, let's get physical

Work me out, let's get physical

Wear me out, let's get physical

Work me out, wear me out

Work me out, wear me out
