Anarchy

Kurupt

Break my back
You won't break me
All is black
But I still seeShut me down
Knock me to the floor
Shoot me up

Fuck me like a whoreTrapped under ice, comfortably cold I've gone as low as you can go

Feel no remorse, no sense of shame Time's gonna wash away all painI made a God out of blood Not superiority

I killed the king of deceit

Now I sleep in anarchy, anarchySacrifice to the cause Turn your code into lawYou compensate

To validate the loss

You take a thief

Nail him to a crossGospel of rage, faction of hate

Deviate from the absolute

Born of revenge, raised on cement

Chaos created governmentI made a God out of blood

Not superiority

I killed the king of deceit

Now I sleep in anarchyI made a God out of blood

Not superiority

I killed the king of deceit

Wake me up in anarchyBorn of revenge, raised on cement

Chaos created governmentI made a God out of blood

Not superiority

I killed the king of deceit

Wake me up in anarchy

Anarchy, anarchy, anarchy
