

The Valley

Bad Love Junkie

Fortune cookie what do you say?
The dream survives on streets of L.A.
But dreams get dirty, when you're down on your knees
It's not mud it's the sleaze It's California baby
Welcome to the show
Down here in the Valley of San Fernando
And if the sun don't thrill ya
The next scene surely will
Straight from a Tarantino film No outrage or scandal that shots were heard
Some folks think she got what she deserved
One less junkie on the street A family picture taken back in the day
I knew her then by her god given name
She had a secret but she never did say
