

Bad Girl (feat. Missy Elliott)

Danity Kane

When the red light comes on, I transform
When the red light comes on, I transform Look in my eyes covered in Maybelline
Looking like something fresh out of a magazine
I can be part of your deepest fantasies
You're the detective, come solve my mystery Some say that love is all that I'm missing
Some call it Jezebel, I call it attention
But what they don't know they can't even imagine
Say, I don't have self esteem but it's my passion Maybe I'm just a bad girl
Maybe I'm just a bad girl
Maybe I'm just a bad girl
Maybe I'm just a bad girl, a bad girl I can be your addiction
If you wanna get hooked on me
I, I can be your addiction
If you wanna get hooked on me Maybe I'm just a bad girl
Maybe I'm just a bad girl
Maybe I'm just a bad girl
Maybe I'm just a bad girl, a bad girl When the red light comes on, I transform
When the red light comes on, I transform
When the red light comes on, I transform Something about me has got you hypnotized
Examine my body like you're the science guy
Watching my every move, you anticipate
What you're thinking about, boy, I can re-create Some say that love is all that I'm missing
Some call it Jezebel, I call it attention
But what they don't know they can't even imagine
Say, I don't have self esteem but it's my passion Maybe I'm just a bad girl
Maybe I'm just a bad girl
Maybe I'm just a bad girl
Maybe I'm just a bad girl, a bad girl I hope you looking for a B A D C H I C
Looking so sexy, make 'em pay me
She not me, 'cuz there just one me
I'm the M to the I double S E Y Lights come on I tran-transform
Gimme that, baby come, come on
I could do it all night to the break of dawn
On, on, and on, I keep on going They call me a Jezebel
Cause I freaks, I does it well
Got extensions in my hair
Bad girls, is y'all up in here Tonight we gon just let it do what it do
I can flip this pretty young thing on you
I ain't looking for attention I just want you

Lemme be your addiction, I can be that too I can be your addiction
If you wanna get hooked on me
I, I can be your addiction
If you wanna get hooked on me Maybe Im just a bad girl
Maybe Im just a bad girl
Maybe Im just a bad girl
Maybe Im just a bad girl, a bad girl When the red light comes on, I transform
When the red light comes on, I transform
When the red light comes on, I transform From a caterpillar to a butterfly
I know I got something that you gonna like
Dont be afraid, I wont let you down
Im the one that'll make you come around Maybe Im just a bad girl
Maybe Im just a bad girl
Maybe Im just a bad girl
Maybe Im just a bad girl, a bad girl I can be your addiction
If you wanna get hooked on me
I, I can be your addiction
If you wanna get hooked on me Maybe Im just a bad girl
Maybe Im just a bad girl
Maybe Im just a bad girl
Maybe Im just a bad girl, a bad girl When the red light comes on, I transform
When the red light comes on, I transform
When the red light comes on, I transform
