

# Divine

## Hemina

Not of this world entirely  
Heaven sent, you are my deity  
Lived through all the romance sadly meant for me  
All I need is a sign  
Make your presence known to mine  
Come to me, I will be divine  
I wear the spell you put on me  
Like a charm no one else can see  
Keeps away the wicked badly meant for me  
All I need is a sign  
Make your presence known to mine  
Come to me and I will be divine  
And when I thought my fire finally died  
I felt your spell tight as ever, tied

No one is above the rituals of love  
Temptation calls and the stars fall from the blue  
There is no limitation except for me and you  
Lived through all the romance  
Sadly meant for me  
All I need is a sign  
Make your presence known to mine  
Come to me and I will be divine  
All I need is a sign  
Make your presence known to mine  
Come to me and I will be divine  
All I need is a sign  
Make your presence known to mine  
Come to me and I will be divine
