Moles

Linda Lewis

Bless all the moles in their hole
Bless all the rabbits in their burrows
Kissing and carrying on
You know they're kissing and carrying onWon't you bless all the little rattlesnakes to come
And all the other rats
Bless all the spiders in their webs
Bless all the flowers in their beds
Kissing and carrying on
You know they're kissing and carrying onWon't you bless all the pollen
Bless all your one-headed, two-legged creatures
Listening to my song
Bless y'all
The long, the short and the tall
The fat and the thin
The dull and the dim
The bright, the heavy and the light
Bless y'all
Bless y'all
