Your Smiling Face

The McCrarys

The weather says the sun won't shine
And I've arrested my free time
No bottle here to ease my mind
My rationale has just run wild
But when I see your smiling face
I know I would not trade my place
I tell you girl I'm so in love with you
Sometimes I think that you don't see
The difference between you and me
Sometimes you got to let me be

I know the truth will set you free
But when I see your smiling face
I know I would not trade my place
I tell you girl I'm so in love with you
I've been where the sun don't shine
I've been arrested once or twice
A bottle's helped me lose my mind
I've seen it done a thousand times
