

# I Can Tell By the Way You Dance

Vern Gosdin

I can see,  
Every time I look into your eyes,  
You don't care a thing about those other guys.  
Without words,  
You made me understand whats on your mind,  
The rythm of your body close to mine.

I can tell by the way you dance,  
That your gonna love me tonight

Sometimes its cold,  
Sometimes its hot!  
Loves either right or it's wrong.  
Feels so good,  
Love you a lot!  
Right here beside me is where you belong.  
I don't care,  
If everybody knows the way I feel,  
Until, the dream of holding you is real.

I can tell by the way you dance,  
That your gonna love me tonight.

Sometimes its cold,  
Sometimes its hot!  
Loves either right or it's wrong.  
Feels so good,  
Love you a lot!  
Right here beside me is where you belong.  
I don't care,  
If everybody knows the way I feel,  
Until, the dream of holding you is real.

I can tell by the way you dance,  
That your gonna love me tonight.

I can tell by the way you dance,  
That your gonna love me tonight.

Mmmmm, I can tell by the way you dance,

That your gonna love me tonight.
