Mangos

Machito

Mangoes, papaya, chestnuts from the fire
In my house of straw I have so much more
Pie from the peach and I fix in the kitchen
Each bite is just right for your appetiteNow if you like-a the way I cook

And if you like-a the way I look

Then step inside my shady nook

And you'll find mangoes and papayas, anything your heart desiresMangoes, papaya, chestnuts from the fire The food is so good, you will want to stay

Eat up and drink up and maybe you'll think up

The day when we say preacher man okayNow if you like-a the way I cook

And if you like-a the way I look

Then step inside my shady nook

And you'll find mangoes and papayas, anything your heart desiresMangoes, papaya, chestnuts from the fire

The food is so good, you will want to stay

Eat up and drink up and maybe you'll think up

The day when we say preacher man okay

It's alright, it's alright
