

See See

Golden Earring

He was the only key, she was the only door
What more could they please, her eyes are ponds of blue
His wishes all came true
What was there to lose in the midnight
See, see, see, he said
Seagulls screamin down in the morning sky
Gee, gee, gee, he said
Come on girl, lets leave this world behind
But then, after weeks the weeks they got weak
Little did they speak about the future
Her eyes still were blue but thoughts soon got black
Time that he went back to where he came from
See, see, see, she said
Broken dreams fill the starless night
Gee, gee, gee, she said
And her tears were sparklin bright in the mornin light
