

Forget About Me

dUSTIN tAVELLA

If this room could come to life
you'd be the heart beat inside
and if the stars forgot to shine
you'd bring the darkness to light I can't believe my eyes
I'm looking at an angel tonight you're such a beautiful girl
but to you, I mean nothing
I try to light up your world
I thought that means something
but you forget about me eh, eh, eh and if these dreams would come to be
I hold you in my arms
give you my heart forever
but girl can't you see?
I gave you all I had
you left me for something you call better I can't believe my eyes
everything came crumbling down tonight you're such a beautiful girl
but to you, I mean nothing
I try to light up your world
I thought that means something
but you forget about me eh, eh, eh
how could you forget about me?
eh, eh, eh, eh, eh
please don't forget about me I've never been good at letting go
but this time it's what's right in your eyes, I'm told.
but something still believes there's hope for you and me
but I gotta know you're such a beautiful girl
but to you, I mean nothing
I try to light up your world
I thought that means something
but you forget about me eh, eh, eh
how could you forget about me?
eh, eh, eh, eh, eh
please don't forget about me
