

Shake Your Heads

Accept

See the world around you
Deep, dark and gray
Grieving heartbreaks all your life
Seems to be the way Wars of aggression
Mankind's favorite game
A press on the button
A world in flames Every night and every day
Frustrations in your heart
Like a one way ticket
No return, you're torn apart Shake your heads
Till your necks are breaking
Shake your heads
Cry out as loud as you can Shake your heads
Till your brains are burning
Shake your heads
Cry out as loud as you can Play the easy rider
Ride fast and free ridin'
The cost of living
Don't mean much to me Your life is a replay
So forget the games you lose
We've got a message
That was made for you Some say yes and some say no
Understanding is the deal
Come hear the music
It's a brand new feel Shake your heads
Till your necks are breaking
Shake your heads
Cry out as loud as you can Shake your heads
Till your brains are burning
Shake your heads
Cry out as loud as you can Shake your heads
Till your necks are breaking
Shake your heads
Cry out as loud as you can Shake your heads
Till your brains are burning
Shake your heads
Cry out as loud as you can Shake your heads
Till your necks are breaking
Shake your heads

Cry out as loud as you can Shake your heads
Till your brains are burning
Shake your heads
Cry out as loud as you can Shake your heads
Till your necks are breaking
Shake your heads
Cry out as loud as you can Shake your heads
Till your brains are
