

Little

Sicko

A record box outside my door
coming home really late from work once more
and it made my day
such a little thing
It's the thought that counts
and the hope it brings A little further
A little bit longer
A little package is more condensed
the little things make a big difference I tried to carry you home from the bar
but I'm out of shape and it's a little too far
So far to go, so far apart
So far so good, and auspicious start
