

# Apple of Your Eye

**Peter Frampton**

Maybe take just one more look around when you need a friend  
To go on the ground, you must fend for yourself  
Till you win, win the race, then you laugh in their face  
Swear me in, Ill testify, Ill be the apple of your eye When you count the million eyes on you  
And theyre waiting just for what you do  
Dont believe all that you read  
Caught the news like some bad fitting shoes  
Hurts when you laugh as youre singing in the back You cant pretend that your fortune wont end  
You cant believe that you got all you need by your side  
When it comes down to your own peace of mind  
Lose everything including your pride and still survive Maybe take just one more look around when you need a  
friend  
To go on the ground, you must fend for yourself  
Till you win, win the race, then you can laugh in their face  
Ill testify, Ill be the apple of your eye
