

Never Gonna Hide

SEU Worship

I see a light breaking through the clouds I feel this joy bursting at the seams
I have a hope surging in my veins
I want it all Your love reviving

No I'm never gonna ever gonna hide myself from You
No I'm never gonna ever gonna find a love this true

You keep me singing in the night
And my world starts turning
You got me dancing through the streets
And my heart starts beating
You're the life I'm breathing

I feel the rush
The wake of perfect love burning within
Shining like the sun
My soul alive
The dawn of all my dreams raging inside
Your passion rising

No one makes me feel
Feel the way I do
No one but You
