Mos Def

[Mos Def (Talib Kweli)]We here, we here, we here (yes yes yes yes)

And, listen

[Mos Def]Yo honeys check it out, she got me mesmerized

With your black hair and your fat ass WOW

Walks over, feel your feet tap on the ground

Make a (nigga) come back like "What's happenin now?"

Hear he really promising the platinum, get down

You'll be backin it out, straight backin 'em down

With your hand on your mouth

And damn baby girl, what's that all about?

You know the ave puttin curves in the brow

On your job, all workin it out

I like how you coordinate: purse, skirt, and the blouse

Around the way, comin straight out the house

You just laid on the couch

Make a cat just pause and be "Wow"

[Talib Kweli]Baby's body was immaculate

Sweet like my first kiss in the back of the flick

I have to insist, miss, that we chat for a bit

But your ass wanna diss

Walkin all fast like you can't stop

I need somebody to get passionate with

You just assume that I be on that supermasculine (shit)

Crackin the whip just to shut you you and fasten your lip

I just be shinin my light and they be baskin in it

I go out casually dip trip on the tragically hit

Sippin Cosmopolitans on some fashionably (shit)

Black Star in the building and it hasta be sick

BK still smokin (nigga) pass me the (shit), what

I'm with my people hurtin to cease, it's curtains for peace
Certain keeps spurs to their knees like I'm chirpin with Tweet
Rhymes sicker than the pervert that flirt with his niece
Stop, the track lay in a hearse deceased
We don't play, my man Kanye murdered the beat
Yo the rhymin's on me, coutesy of Kweli
It's (Ludacris) how I'm (Disturbin The Peace)
[Mos Def]Yeah, you ain't burnin the street
Look at how we got 'em personally thieved
Sipped on when I get open Henny
Pen strollin on the track like Bishop Don
Or filmed on the Real World
Smoke slow, no joke, one draw I kill y'all
How many times yo do I got to tell y'all?
