## The Bud Powell Trio

Send them over the waves, our sentinels  
They report in the news, position of our foes  
This battlefield's been chosen, tactically in advance  
Time to alert our fighters, we're soon in rangeMidway  
We'll meet at Midway  
Naval warCalling all men to deck, got to be airborne  
Head out into the sun, descending on our foes  
This is the crucial moment, in the heat of the war  
To fly and hit our targets, down in the wavesMidway, display their might  
Ordering carriers, admirals at war  
We'll meet at Midway to win the fight  
Tactics are crucial, naval warFar from shore, a pacific war  
Bombs are falling from the skies  
It's a bomb run day, it's the naval way  
A blood red sun is on the riseFar from shore, a pacific war  
Bombs are falling from the skies  
It's a bomb run day, it's the naval way  
A blood red sun is on the riseMidway, display their might  
Ordering carriers, admirals at war  
We'll meet at Midway to win the fight  
Tactics are crucial, naval warMidway, display their might  
Ordering carriers, admirals at war  
We'll meet at Midway to win the fight  
Tactics are crucial, naval warMidway
