

spoken words

Days of Grace

And there I was all alone, all by myself
And you were just a ghost behind a screen
The few short months we spent
Long distance, late nights, just the two of us
I've grown to picture you
I've pictured you with me
There are things I've just not told you
Works of treason wrought by these very hands
I've been scared for me, now I'm scared for you
And so it's best I say farewell
(No, no, no) Where you're going I will be there
And every time you reach out I'm there
Where you're going I will be there
Oh, you've got to believe me
I'll never go away
You listen close, I've got to run and hide myself away
I think I may have brought them to their knees
There were your thoughts
Oh, how they drew me in
I need to be with you
I've nowhere else to turn
All through my life I've had such an emptiness
That no one could ever fill
Some how your dreams they've touched my life
You see I think I'd like to try
Where you're going I will be there
And every time you reach out I'm there
Where you're going I will be there
Now you've got to believe me
I'll never go away
Our only hope I would say
Is to rendezvous somewhere far away
Just decipher the location that I send
Now I think that they are on to you
Our time has come
Where you're going I will be there
And every time you reach out I'm there
Where you're going I will be there
Now you've got to believe me
I'll never go away
