

Had You Been Around

[Diana Ross](#)

I might have known a lot of things
Been smiled upon by kings and queens
Had you been around Perhaps had you been by my side
My dreams might not have been denied
Had you been around I've wasted many years, tasted many tears
And I want to know
Lost on my own before I knew of you I might have heard a sigh
Of someone passing by
Had you been around And though it seems absurd
I really never heard
A sound Until that day you came my way
With pleasure I never found
It all might have been
Had you been around Had you been around
Perhaps had you been by my side
My dreams might not have been denied
Had you been around I've wasted many years, tasted many tears
And I want to know
I'm lost on my own before I knew of you I might have heard a sigh
Of someone passing by
Had you been around And though it seems absurd
I really never heard
A sound Until that day you came my way
With pleasure I never found
It all might have been
Had you been around One more time, it all might have been
Had you been around
Do it again, it all might have been
Had you been around Had you been around
