

# Twisted Nerve

## kill bill vol.1

You are a chainsaw through my heart  
Ripping right through me from the start  
You make me go crazy all night long  
I need you so bad, I know it's gotta be wrong  
You get on my nerves, you make me so mad  
It's times like these that I just can't stand  
You're so far away and I can't hurt you now  
I guess I'll just use myself like I know how  
Rip out my hair  
Wish that it's yours  
Cut my own skin  
Pretend that it's yours  
Call you up in tears  
Then you'll take back all the things that you said  
And we can be ourselves once again  
Goddamn, how you make me scream and shout  
I don't wanna run around my room and pout  
But you make me do it and I can't hardly stand it  
You've got my heart and you know you've always had it  
But now you're so far away  
And there's no way to make you pay  
So I'll go around my room and break anything I want  
And in my head imagine breaking your heart  
Rip out my hair  
Wish that it's yours  
Cut my own skin  
Pretend that it's yours  
Call you up in tears  
You're such a tease, you're such a jerk  
Why do I waste my time?  
I'll make you take back all the things that you said  
I'll make you take back all the things that you said  
You're such a tease, you're such a jerk  
Why do I waste my time?  
I'll make you take back all the things that you said  
I'll make you take back all the things that you said  
You're such a tease, you're such a jerk  
Why do I waste my time?  
I'll make you take back all the things that you said  
I'll make you take back all the things that you said  
And we can be ourselves once again  
You are a chainsaw through my heart  
Ripping right through me from the start  
You make me go crazy all night long  
I need you so bad, I know it's gotta be wrong  
You get on my nerves, you make me so mad  
It's times like these that I just can't stand

You're so far away and I can't hurt you now  
I guess I'll just use myself like I know how
