

# Emphasis (Session Version)

## After Forever

The game is over, time has taught life  
Open your eyes and embrace our so-called paradise  
All the notions and thoughts  
Devise a way to make it yours  
The enigma of a reason How can life be what you want it to be  
Find the emphasis in your own reality Deviate from the search with episodic glimpses  
Of a spectrum no one can see or feel, nor declare Slowly become aware life knows its prophecies  
Find the emphasis in your own reality In all life you see  
A sudden shifting of events  
What's coincidence, what's faith? The ambiguity makes the sense of our destiny worth searching for  
What can it induce? If our being was omniscient?  
There's so much you'll never know, but Your life will be what you want it to be  
Find the emphasis in your own reality
