Drug Like

Action Action

I'm an angel with broken wings
Who's poisoning the night
With love, from me to youI'm having an episode
Do you want a small bit part
I think you might, oh, I hope you doOh, baby, go so slowly
Noways, nothing, quiet softlyThe world falls apart in just seven days
It sinks to the bottom in oceans of rain
The cure is so clear, the blood is astray
And everyone dies except for the rainAnd I think that I'm starting to scare myself
And I think that I'm starting to scare myselfI hate myself and I want you to die
So insincere, swallowing ice
And it all will render uselessWelcome to enhancement by affiliation
Time swept by in a hungry nation
And everybody's dancing to get it off their chests
And everybody dies no one gets to restOh, baby, go so slowly
Noways, nothing, quiet softlyThe world falls apart in just seven days
It sinks to the bottom in oceans of rain
The cure is so clear, the blood is astray
Everyone dies except for the rainAnd I think that I'm starting to scare myself
And I think that I'm starting to scare myselfAnd I think, and I think I'm starting to scare myself
And I think, and I think I'm starting to scare myself
And I think, and I think I'm starting to scare myself
And I think, and I think I'm starting to scare myselfGo slow for the angels will fall
For the bitterness of this orgy God
Half lives with secular law
Suspended in a drug likeIn a drug like, in a drug like
In a drug like state of bliss
