

Body Brain

Anouk

Well, you know I've got this problem
'Cause there is you
No matter how I try to tell you, you just can't see
Oh no, I won't get through You've got a body and a brain Instead of pointing to another
Take a look at yourself
Why don't you just use that thing inside your head
And try to tell me why? You've got a body and a brain
You're free to speak, could you explain
The reason for your narrow mind?
You're thinking medieval times Your ignorance just gets you scared
Of everything and I don't know
Which way the wind is blowing
Hoping it will blow your fears away I'm sure I'll never solve this problem
But I hope you will
I'll speak my mind and tell you time and time again
Though I won't get through, yeah You've got a body and a brain
You're free to speak, could you explain
The reason for your narrow mind?
You're thinking medieval times Your ignorance just gets you scared
Of everything and I don't know
Which way the wind is blowing
Hoping it will blow your fears away
Blow your fears away Time and time, and time and time again
But I can't get through, baby
Let me explain You've got a body and a brain
You're free to speak, could you explain
The reason for your narrow mind?
You're thinking medieval times Your ignorance just gets you scared
Of everything and I don't know
Which way the wind is blowing
Hoping it will blow your fears away Hoping it will blow your fears away
You've got a
You've got a
You've got a
You've got a You've got a body and a brain
You've got a body and a brain
You've got a body and a brain
Everybody had a body, a brain
