

# Long Live the Loud

## Exciter

I burn down the highway  
My music is loud  
Gone past all barriers of sound  
Lay down metal law  
Let's show them who's the boss  
Long live the louder than hell Long live the loud, long live the loud  
Long live the loud, we are loud and proud Into the red zone we rage every night  
We vow to destroy all in sight  
The louder the better the heavier the metal  
Loud will prevail in this fight Long live the loud, long live the loud  
Long live the loud, we are loud and proud No time for losers adrenalin is high  
Our thunderous roar cracks the sky  
Keeping ahead walking the dead  
Atop of your wreckage we stand Long live the loud, long live the loud  
Long live the loud, we are loud and proud Long live, long live, long live  
Long live the loud  
Long live the loud
