

# Best of Me

## À-zzi

I don't wanna get the best of you  
Yo, yo  
You put me on  
I can't let, let him go no  
Can't let you get, oh no  
He has a little game that he plays  
Clever little ways and a hot boy style  
Racks up on the dough that he makes  
Flash a little cash, watch girls wild out  
Lately he's been checking for me  
Telling me how much he wants to be  
Wants to be the one to replace  
Replace the man that waits at home for me  
But oh no, I can't let you get the best of me  
Even though deep inside something's dying to see  
How you flow out them clothes then you put it on me  
Feelings coming on strong, I know that it's wrong  
I can't let you get the best of me, the best of me  
So busy trying to play with my head  
Telling me how he could blow my mind  
Something about the things that he said  
Made me wanna take it there one time  
I should be walking away  
'Cause his hands up on my thigh  
Should I leave, should I stay?  
After all it's just one night  
But oh no, I can't let you get the best of me  
Even though deep inside something's dying to see  
How you flow out them clothes then you put it on me  
Feelings coming on strong, I know that it's wrong  
I can't let you get the best of me, the best of me  
Yo, yo, yo, I got so many bags of money  
That they won't fit in the bank  
  
And I'mma do this just like Tony did it to Frank  
But I'mma make sure both y'all win  
Let him keep the place you move  
And I'mma pay both y'all rent  
So forget about the condo and come to the crib

'Cause the castle over the mountain come with a bridge

You know literally we can go shopping in Italy

Hand on her thigh, she ain't wanna get rid of me

And she don't drink or know how a L look

Chanel look mixed with the Pete Arnell look

You just stay pretty while I'm running the city

When I whip the V you can hold the joint if you with me

Vacation cost a hundred and fifty, we living it up

I put it on your ass if you giving it up

And you know I'm not a hater

And if you feel bad then you can call him later

And tell him you all Jada's

But oh no, I can't let you get the best of me

Even though deep inside something's dying to see

How you flow out them clothes then you put it on me

You ain't gonna get to me

You can't get the best of me

But oh no, I can't let you get the best of me

Even though deep inside something's dying to see

How you flow out them clothes then you put it on me

Feelings coming on strong, I know that it's wrong

I can't let you get the best of me

But oh no, I can't let you get the best of me

Even though deep inside something's dying to see

How you flow out them clothes then you put it on me

Yeah, oh yeah, oh no, yeah

But oh no, I can't let you get the best of me
