

# Bleeding

Nil Lara

Is it me or is it you  
Tell me what am I to do?  
I've got my back up against the wall  
Your silly smile is at my face again Was I wrong or was I right?  
I guess I should have taken my own advice  
I thought we'd talk this out before  
But we keep opening the same old doors And so you've got me where you want  
I feel you've got me on my knees  
Yes, you have me bleeding  
And so you've got me once again  
I feel you've got me near the end  
Yes, you have me bleeding And so you've got me where you want  
I feel you've got me on my knees  
Yes, you have me bleeding Try to believe I am drained  
I don't wanna bleed no more  
Don't wanna bleed no more Was it me or was it you?  
I cannot share your point of view  
I've given everything I can  
Maybe you don't like who I am Was I wrong to treat you right?  
I guess I should have taken my own advice  
I should have left you some time ago  
There's nothing else to say And so you've got me where you want  
I feel you've got me on my knees  
Yes, you have me bleeding  
And so you've got me once again  
I feel you've got me near the end  
Yes, you have me bleeding And so you've got me where you want  
I feel you've got me on my knees  
Yes, you have me bleeding Try to believe, I am drained  
Try to believe, I am drained And so you've got me where you want  
I feel you've got me on my knees  
Yes, you have me bleeding  
And so you've got me once again  
I feel you've got me near the end  
Yes, you have me bleeding And so you've got me where you want  
I feel you've got me on my knees  
Yes, you have me bleeding Try to believe I am drained  
I don't wanna bleed no more  
Don't wanna bleed no more
