Quiet Niggas

Nas

Where my real niggas at There's a lot of real niggas out there There's a lot of real niggas everywhere That's why you don't fuck with just anybody A lot of niggas is just on the low, chillin' Not botherin' nobody Until one motha fucka fuck with 'em And then all Hell break loose Quiet niggas will kill Loud niggas talk shit Them be the one's who get killed It's wild where we walk kid Is you brave nigga Is you a slave nigga Is you a made nigga Or is you a paid nigga Quiet niggas will kill Loud niggas talk shit Them be the one's who get killed It's wild where we walk kid Is you brave nigga Is you a slave nigga Is you a made nigga Or is you a paid nigga Well known gangstas, in trust That we bust Your heart and soul lies with us, let's see Boldly go where we once took a nigga before Now the motha fucka beggin' for more It's the reason Standin' here shakin', hatin the haters They watchin' my paper Realize, a 4 5 will open his eyes Now what the fuck you think he saw before he drop Nigga standin' there just like a cop Braveheart I'm screamin' up the block Now the soldier, cadet, general in fact Don't let me get up and show yawl motha fucka's respect Plans connect

The twinkle and diamonds upon my neck
More jazz than Hornecek
I blast and leave your corner wet
Straight on top of ya
Spittin' like the trench coat mafia
In a school yard we make it hard
Was poppin' yawl

We made our change was stoppin' yawl
They spray your names rest in peace on the [Incomprehensible] wall

Quiet niggas will kill
Loud niggas talk shit
Them be the one's who get killed
It's wild where we walk kid

Is you brave nigga
Is you a slave nigga
Is you a made nigga
Or is you a paid nigga
Quiet niggas will kill

Loud niggas talk shit
Them be the one's who get killed

It's wild where we walk kid

Is you brave nigga
Is you a slave nigga
Is you a made nigga
Or is you a paid nigga

I wave gang signs at the youth, that's down for the cause
Cling them things in the [Incomprehensible] you betta get yours
Time is runnin' out, your streets is gettin' smaller as we speak
Juliani turns these lights on so niggas can't creep
I miss the shit of days we did this, please free John Gotti
They kept the black man eatin', not killin' everybody
Drug wars is real, you have no friends in the outfield
Foul balls is deaf, umpires keep ice grilles
There's no tomorrow its the bottom of the 9 9
Can't die a broke man with a bitch that's fine
My hearts full of braveness so who the fuck will want to save this
Fallen angel from fallen star and chaos on this nation
Don't play us on your station if you pussy or you hatin'
You can find us in the hood; thuggin' and regulatin'
Don't play us on your station if you pussy or you hatin'

Quiet niggas will kill
Loud niggas talk shit
Them be the one's who get killed
It's wild where we walk kid

You can find us in the hood; thuggin' and regulatin'

Is you brave nigga

Is you a slave nigga

Is you a made nigga

Or is you a paid nigga

Quiet niggas will kill

Loud niggas talk shit

Them be the one's who get killed

It's wild where we walk kid

Is you brave nigga

Is you a slave nigga

Is you a made nigga

Or is you a paid nigga

We here to eat food, my peoples, be lethal

Shots in your body make you see through

Quiet niggas become jail riot niggas

25 to life, big never cry niggas

Floss when they up north

Chest gettin' bigger

Celebs on the V I respect that nigga

Rege on the regular chops is up, like a editor

Come through on man gang like the Predator

If yawl wake I'll wet it up

Jungle set it up

The jackal rock you to sleep

While I'm comin' at you

Air out your area, Queens Bridge forever, what

Ill will the label

Bravehearts yawl scared of us

Yo when those niggas ran, these niggas stayed

With those niggas switched up and bitched up afraid

These niggas clicked up and ripped up the gauge

Those niggas got jail and sick 'cause we paid

Don't even rep Q B, you ain't got hood stripes

Looters come through catch you frontin' and it's good night

Know how much force this is, juggle horse and whiz

Notin' but horses kid, we go to war for this

Quiet niggas will kill

Loud niggas talk shit

Them be the one's that get killed

It's wild where we walk kid

Is you brave nigga

Is you a slave nigga

Is you a made nigga

Or is you a paid nigga

Quiet niggas will kill

Loud niggas talk shit Them be the one's who get killed It's wild where we walk kid Is you brave nigga Is you a slave nigga Is you a made nigga Or is you a paid nigga Quiet niggas will kill Loud niggas talk shit Them be the one's who get killed It's wild where we walk kid Is you brave nigga Is you a slave nigga Is you a made nigga Or is you a paid nigga Quiet niggas will kill Loud niggas talk shit Them be the one's who get killed It's wild where we walk kid
