Here Are the Problems

Good Old War

Wait,
Half your heart stays with me if your sorry
Stay
Do your part, you are for me, you are the last pieceYou've already gone
I'm trying
To get you
To stop you
From runningIf you are sure who I am
You don't hear me
And if you leave now, I might die
No, I'm not lyingI've already lost
I'm trying
To get you
To stop you
From runningI'm finding I'm still wanting you
Your leaving never seems to go throughI've already lost
I'm trying
To get you
To stop you
From runningIt's our dream
It's our life
It's only a weaknessHere are the problems I've gone looking for
Here are the answers I can't get to you
Here are the problems I've gone looking for
All of the answers are what's left this year.
