

Autumn (Paradise Is Free)

Level 42

I just can't believe it's true
Lovers never loved as we two do
Take me up on loves sweet train
Rising falling till you call my name
Paradise is freeIt's conceived when you love me
And you know I'll always be here forever
Take what I can give for the love it's given with
All the love that we can live in togetherBeing here is all I feel
Passions striving never seemed so real
Use it all to take us there
Lying still now floating on thin air
Paradise is freeIt's conceived when you love me
And you know I'll always be here forever
Take what I can give for the love it's given with
All the love that we can live in togetherParadise is free
It's conceived when you love me
And you know I'll always be here forever
Take what I can give for the love it's given with
All the love that we can live in togetherNo more games to see me through
Playing more now than we used to do
Summer's pain is gone away
Autumn bring love to us again
