

# All Night Dance Parties In The Underground Palace

## Alesana

Beautiful, you know you leave me breathless  
When you fall into my eyes  
My heart belongs to you my angel  
There is just no reason for you to  
Let life bring you down  
Please come with me and let me show you  
I know that at times it may be hard to let go of yourself  
Baby girl, tonight leave your cares behind  
Because it's time to celebrate  
All night long I'll sing and dance with you  
My sweet princess only if you trust in this  
Take my hand and follow me  
I will sweep you off of your feet  
All night long I will sing and dance with you  
Every time I look at you I can't believe  
How magical you are  
The stars belong to you my angel  
Run away with me into a world  
Where time seems to not exist  
The smile on my face will show you  
I know that at times it may be hard to let go of yourself  
Baby girl, tonight leave your cares behind  
Because it's time to celebrate  
All night long I'll sing and dance with you  
My sweet princess only if you trust in this  
Take my hand and follow me  
I will sweep you off of your feet  
This night will only end when we stop dancing  
My sweet princess I will sing and dance with you  
All night long  
The stars they belong to you my angel  
All night long I'll sing and dance with you  
My sweet princess only if you trust in this  
Take my hand and follow me  
I will sweep you off of your feet  
This night will only end when we stop
