

Anything I'm Not

[Lenka](#)

I will never be, I will never be tall, no
And I will never be, never ever be sure of it all
Oh, why's the world so cruel to me?
When all, all I ever wanna be is anything I'm not Gimme a break, a little escape
I am so tired of being me
I wanna be free, I wanna be new and different
Anything I'm not, I'm not I will never be, I will never be you, no
I will always be, I will always be me, that I know
But oh, even though I'm happy being me
I want to get away from all this harsh reality, oh Gimme a break, a little escape
I am so tired of being me
I wanna be free, I wanna be new and different
Anything I'm not Yeah, gimme a break, a little escape
I am so tired of being me
I wanna be free, I wanna be new and different
Anything I'm not, anything I'm not
Oh, anything I'm not Gimme a break, a little escape
I am so tired of being me
I wanna be free, I wanna be new and different
Anything I'm not Yeah, gimme a break, a little escape
I am so tired of being me
I wanna be free, I want to be new and different
Anything I'm not, anything I'm not
Anything I'm not, anything I'm not
Anything I'm not
