Our First Christmas Together

Celtic Thunder

Don't mind the snow that's falling
The carol singers calling
I'm just happy

To be spending our first Christmas

TogetherAnd I'll be more than jolly

With the mistletoe and holly

Tonight as we are counting down to Christmas

Together

Just you and meWith those jingle bells ringing

As I'm holding you near

I'll be making a toast

May tonight be the most

Unforgettable night of the yearThe sound of

Jingle bells and laughter

Will remind us ever after

Of how we spent that magical first Christmas

Together

Just you and meJust you and meWith those jingle bells ringing

As I'm holding you near

I'll be making a toast

May tonight be the most

Unforgettable night of the year

The yearCuddled up and cozy

The future's looking rosy

And I can see us spending every Christmas

Together

Just you and me

Just you and me

Just you and me

Just you and me
