Drive All Night (Live From the Woods)

NEEDTOBREATHE

I ain't lookin for a free ride home
Back to the middle
I need a new locale
I need a girl who calls me baby
I need to know if she can save me
I need somewhere I can drive all night
Out into the darkness
Follow the headlights down
I gotta know if they can take me
I gotta know if they can save meFocus in on every word
Change my path
Maybe I could leave a mark
Try and prove the poets wrong
There must be time
Maybe we could be the song
To march us onI ain't lookin for a free ride home
Back to the middle
I need a new locale
I need a girl that calls me baby
I need to know if she can save me
I need somewhere I can drive all night
Out into the darkness
Follow the headlights down
I need to know where they can take me
I gotta know if they can save meBeg the book to turn the page
Cause I get stuck where the villains get away
Somewhere in this wretched tale there must be a line
Where the victim gets his way
Just one time
I'll get mineI ain't lookin for a free ride home
Back to the middle
I need a new localeI need a girl that calls me baby
I gotta know if she can save me
I need somewhere I can drive all night
Out into the darkness
Follow the headlights down
I need to know where they can take me
I gotta know if they can save meDrive all night
Hold on tight

Close your eyes
Say goodbye
