

# Crazy

Kat Dahlia

(Verse)

Is it crazy that I want you to stay when I tell you to leave, when I tell you go?

Is it crazy that I say your name all times of day then I say my own?

Tell me baby is it crazy?

Tell me baby is it crazy?(Verse)

Is it crazy when you're gone for a minute?

I'm missing you yea I feel alone

Is it crazy that I'm jealous of them bitches when they get yo time and I know it's wrong?

Tell me is it crazy?

Yea, I need to know if it's crazy, damn(Pre-Chorus)

'Cause I ain't been myself

Lately something's going on

No, boy I ain't even slept

I've been up all night long

In my head

Tryna figure out what I want,

What I do, what I don't

Is it crazy all that I miss is is you?(Chorus)

Tell me 'cause it's blowing my mind

Tell me 'cause I don't understand

How someone just can't walk into your life

And everything before that you forget(Verse)

Is it crazy?

Tell me what's going on, I need to know

'Cause I ain't tryna lose myself or lose control

Baby tell me the truth, I need to know

Is it crazy?

Baby, is it crazy?(Verse)

Is it crazy that I told my ex "don't call no more 'cause I'm in love"?

Is it crazy that I keep your shirt right here just to smell your cologne?

Damn it sounds crazy

Tell me is it crazy?(Pre-Chorus)

'Cause I ain't been myself

Lately something's going on

No, boy I ain't even slept

I've been up all night long

In my head

Tryna figure out what I want,

What I do, what I don't

Is it crazy all that I miss is is you?(Chorus)  
Tell me 'cause it's blowing my mind  
Tell me 'cause I don't understand  
How someone just can't walk into your life  
And everything before that you forget(Bridge)  
Is it crazy? Is it crazy?  
Crazy! Is it crazy?  
Crazy! Is it crazy?  
Tell me Is it crazy?  
Is it crazy? Is it crazy?  
Well if it is I'll just be crazy for you(Chorus)  
Baby 'cause it's blowing my mind  
Tell me 'cause I don't understand  
How someone just can't walk into your life  
And everything before that you forget I'm crazy crazy crazy for you  
I'm crazy crazy crazy for you
