

# Willie The Weeper

[Sidney Bechet](#)

Yonder comes Willie the weeper saddest looking sight in all the town  
Had a new love but couldn't keep her now Willie's crying heart is broken down  
You should have seen the smiling face that Willie wore  
The day he found the thrill of her embrace  
For the first time in his whole life Willie fell in love  
But I took the smile right off of Willie's face took his place  
Yonder comes Willie the weeper...I put on the smiling face that Willie wore and took her round for everyone to  
see  
But she found someone else that she wanted more  
Now Willis's smiling face laughs back at me look and see  
I'm just like Willie the weeper saddest looking sight in all the town  
Had a new love but couldn't keep her now mine and Willie's hearts are broken down
